The Business Committee of the Thirty-Fourth General Synod has recommended this proposed resolution be sent to a Committee of the General Synod.

## Denouncing the Dobbs Decision and Proclaiming Abortion as Healthcare

A Resolution of Witness

Submitted by: Rev. Jess Chancey, UCC Disabilities Ministries Rev. Courtney Stange-Tregear, Pacific Northwest Conference Rev. Emma Brewer-Wallin, United Church of Christ Board Rev. Sheila Harvey, Florida Conference Rev. David Story, Southern New England Conference Rev. Hank Fairman, Illinois Conference Rev. Mike Ford, Florida Conference Rev. Dr. Justin Sabia-Tanis, Minnesota Conference Rev. Lisa LeSueur, Mental Health Network Rev. Edwin Perez, Colectivo de UCC Latinx Ministries

## 1 Summary:

2 Content warning: abortion, sexual violence, miscarriage

3

4 In June 2022, the Supreme Court, in Dobbs v. Jackson Women's Health Organization,

5 overturned the fifty-year precedent of *Roe v. Wade*, which established the right to abortion. This

6 resolution denounces the *Dobbs* decision, affirms abortion as healthcare, and calls upon the

7 various settings of the United Church of Christ to nonviolently resist abortion bans, protect legal

8 abortions where they exist, and accompany people seeking abortion care.

9

10 Biblical, Theological, and Historical Grounding

11 In June 2022, the United States Supreme Court, in *Dobbs v. Jackson Women's Health* 

12 Organization, overturned the fifty-year precedent of Roe v. Wade, which established the

13 Constitutional right to abortion. With abortion access now limited or entirely restricted in some

14 states, access to abortion care is deeply unequal, privileging those living in abortion-access states

15 or with the financial means to travel to an access state.

16

17 This decision is unjust and is causing suffering among many. We must speak out against this

18 injustice and resist it nonviolently. Content warning: abortion (throughout, specifically lines 41-

19 67; 129-130), sexual violence, (lines 58-67; 165) miscarriage (lines 132-133)

20

21 Justice oriented theology calls for us to place the human narrative of those who suffer oppression

- 22 as central to our theological claims.
- 23

Shocking stories in the news grab our attention such as children forced to bear children, as in the 24 case of the 16-year-old Florida girl blocked from terminating her pregnancy by a judge's 25 determination that she is "not sufficiently mature" – even though she has the consent of her legal 26 27 guardian for the procedure to go ahead.<sup>1</sup> 28 29 Other stories may not make the headlines but are common. People who can get pregnant are faced with falling deeper into poverty by bearing a child, such as the Texas mother who 30 "panicked" when "she learned she was pregnant in September of last year just as a Texas law 31 banning all abortions after roughly six weeks of pregnancy took effect." 32 33 34 "I was so broken. I couldn't fathom that it was happening," said the 30-year-old hairstylist. "I can't afford this child. I am struggling with a child I already have."<sup>2</sup> 35 36 37 Such stories reveal the complex social, psychological and economic consequences of the denial of reproductive care that are the context for social justice oriented theological and biblical 38 39 reflection. 40 A groundbreaking study conducted by UC San Francisco reveals the long-term adverse effects of 41 unwanted pregnancy on people's lives. The study found, "These parents were also more likely to 42 43 raise the child alone, without the support of family members or partners, and were more likely to 44 stay in contact with an abusive partner. In addition, individuals who were not able to access abortion were three times more likely to be unemployed than those who were able to access one. 45 46 They had four times greater odds of living below the federal poverty line, were more likely to report not being able to afford basic living needs, and were more likely to be enrolled in food 47 assistance or other public safety-net programs such as Temporary Assistance for Needy 48 49 Families." Poverty, food insecurity, ongoing deprivation, and high risk of abuse are the real life consequences of the lack of reproductive healthcare.<sup>3</sup> 50 51 52 Proverbs 31:9 teaches us not to be silent in the face of such outrages, but to speak up, speak out 53 and act. 54 "Open your mouth, judge righteously, 55 56 And defend the rights of the afflicted and needy." 57 58 And we know this is the job of those who seek justice and that the refusal to understand the rights of the poor is "wicked" as in Proverbs 29:7: 59 60 "The righteous is concerned for the rights of the poor, 61 62 The wicked do not understand such concern." 63 Taking care of those unjustly and violently treated was central to the teaching of Jesus of 64 65 Nazareth. The parable of the "Good Samaritan" (Luke 10:30-37) teaches this in no uncertain 66 terms. We who follow the teachings of Jesus know we must not "pass by on the other side" when those who can get pregnant are so unjustly treated by the denial of needed reproductive care. 67 68

The United Church of Christ has been a consistent voice supporting people who need health care, 69 70 specifically those who can get pregnant.

71

72 General Synod 27 affirmed support for "universal health care which meets the following criteria:

73 1) it covers all persons; 2) it presents no financial barriers; 3) it provides comprehensive benefits;

74 4) it offers a choice of physicians and other health providers; and 5) it eliminates racial, ethnic

75 and all other disparities for health care."<sup>4</sup>

76

77 General Synod 29 "affirmed the value and dignity of women in the church and society and called

78 for an end to sexism and the consequences of patriarchy" and called upon the various settings of

79 the church to "[assure] women equal pay, a full range of health care choices and services,

including Title X and Planned Parenthood, and [recognize] a woman's right to make decisions 80 about her own reproductive health."5

- 81
- 82

General Synod 30 "reaffirmed its commitment to the full legal protection of the civil rights of all 83

84 persons regardless of sexual orientation or gender identity and expression."<sup>6</sup> While "women" are 85 the group of people typically understood as needing abortion care, cisgender women, nonbinary,

86 genderqueer, & genderfluid people, and transgender men can all be people who might become

87 pregnant.

88

89 General Synod 15 declared the United Church of Christ a Just Peace Church, and General Synod

30 reaffirmed that identity. Nonviolent resistance to injustice is one of the ten practices of Just 90

91 Peace. While Christians often quote Romans 13 to argue that laws should be obeyed, Paul, the

author of Romans, defied Roman civil authorities and was arrested for preaching the good news. 92

He witnessed to the guards while he was in jail (Acts 16:16–40). Helping people who can get 93

94 pregnant access reproductive health care in places where governing authorities have made it

95 illegal is biblically and theologically sound. Resources are available on the UCC Just Peace Website.<sup>7</sup>

96 97

98 "Indeed, the body does not consist of one member, but of many... The eye cannot say to the hand, 'I have no need of you,' nor the head to the feet, 'I have no need of you.' ... If one member 99 100 suffers, all suffer together with it; if one member is honored, all rejoice together with it." (1

101 Corinthians 12:14, 21, 26, NRSVUE). Although not all members of the collective body of the

United Church of Christ and the nation are able to be pregnant, when the reproductive freedom 102

and health care access for some parts of the body are limited, the whole body suffers with it, and 103 104 the whole body is called to respond.

- 105
- 106 **Text of the Motion**
- 107

Whereas the *Dobbs* decision overturned *Roe v*. *Wade* and ruled that there is no constitutional 108 right to abortion; 109

110

Whereas a majority of Americans support legal abortion in all or most cases;<sup>8</sup> 111 112

113 Whereas anti-abortion laws do not decrease abortion rates but make abortions more dangerous

by eliminating access to safe, affordable, and medically-necessary abortions;<sup>9</sup> 114

- 115
- 116 **Whereas** abortion care following miscarriage is severely restricted by abortion bans, threatening 117 the lives of pregnant people in their time of grief;<sup>10</sup>
- 118
- 119 **Whereas** people of lower socioeconomic status and people of color are more likely to receive 120 abortion care, due to systemic factors including poverty, lack of access to contraception, and
- distrust of the medical system,<sup>11</sup> and whereas anti-abortion laws deepen unequal access to
- 122 comprehensive reproductive care, with insufficient access mostly affecting rural communities
- and Black and Brown communities and negative reproductive health outcomes
- 124 disproportionately affecting people of color;<sup>12</sup>
- 125

126 Whereas General Synod 8 "[called] for the repeal of all legal prohibitions of physician-

- 127 performed abortions";<sup>13</sup> General Synod 12 "[reaffirmed] full freedom of choice for the persons
- involved in making decisions regarding pregnancy";<sup>14</sup> General Synod 17 "[deplored] the
- decision handed down today by the United States Supreme Court severely limiting major
- 130 provisions of Roe v. Wade as undermining the spirit of the constitutional freedom of choice of
- 131 women of this nation and making freedom of choice essentially a luxury for those who are not
- 132 economically disadvantaged;"<sup>15</sup>
- 133
- 134 Whereas previous General Synods (12, 13, 16, 18) have paired support for safe and legal
- abortions with a desire for information and resources about contraception and family planning,
- and teen abortion rates decline with free access to contraception;<sup>16</sup> and the United Church of
- 137 Christ has heeded this call through holistic, faithful sexuality education, Our Whole Lives, which
- 138 helps participants make informed and responsible decisions about their sexual health and
- 139 behavior;
- 140
- 141 **Whereas** Justice Thomas' concurring opinion in *Dobbs* threatens Constitutional protection for 142 access to contraception, as well as protection for same-sex sexual relations and marriage;<sup>17</sup>
- 143

Whereas the UCC Medical Benefits Plan covers abortion "per Plan policies and per individual
state regulations,"<sup>18</sup> and is now an unequal benefit across states where the UCC Medical Plan has
beneficiaries;

- 147
- 148 Therefore be it resolved that the Thirty-Fourth General Synod of the United Church of Christ 149 affirms the right of all people to access reproductive healthcare including contraception and
- affirms the right of all people to access reprodabortion and takes the following actions:
- 150
- 152 Proclaims that Mary's informed, joyful choice to bear a child is the first act of Christian
- 153 discipleship, and that forced birth is an act of sexual violence antithetical to the incarnation and
- 154 the choice to have and care for children is a sacred decision which should not be forced upon
- 155 anyone;
- 156
- 157 Proclaims that every person seeking an abortion is a beloved child of God, our neighbor, a
- 158 person we love;
- 159

- 160 Denounces the overturn of legal precedent in *Dobbs v. Jackson Women's Health Organization*
- and condemns all laws banning abortion or restricting access to reproductive health services;
- Affirms the morality of resisting by peaceful means, including civil disobedience, any laws banning abortions, and calls upon every setting of the United Church of Christ to use Just Peace practices<sup>19</sup> to confront abortion hans and restrictions on reproductive healthcare:
- 165 practices<sup>19</sup> to confront abortion bans and restrictions on reproductive healthcare;
- 166
- 167 Calls upon the National Setting of the United Church of Christ and the Conferences to explore168 and pursue all avenues for legal challenges to abortion bans;
- 169
- 170 Calls upon the United Church of Christ Board to explore creation of a Bail Fund for UCC
- 171 members arrested for participation in civil disobedience or other acts of Christian witness that
- 172 promote social, racial, economic, environmental, gender, and reproductive justice;
- 173
- 174 Calls upon the Pension Boards to cover travel costs and other out-of-pocket expenses for out-of-
- 175 network abortions and other reproductive healthcare required by UCC Medical Benefits
- recipients living in states where abortion is limited or outlawed, and requests a report on this
- 177 expansion of coverage to General Synod 35;
- 178
- 179 Calls upon Local Churches and their members to engage with the Our Whole Lives: Sexuality
- 180 and Our Faith curriculum to promote holistic sexuality education, including information about
- 181 contraception, and to support and offer access to contraceptives;
- 182
- 183 Calls upon Local Churches, Associations, and Conferences to physically, financially, and
- spiritually accompany people seeking abortions and other reproductive healthcare, in partnership
  with local health care agencies and abortion funds.
- 186
- 187 **Funding**: The funding for the implementation of the resolution will be made in accordance with
- 188 the overall mandates of the affected agencies and the funds available.
- 189
- 190 Implementation: The Officers of the Church, in consultation with appropriate ministries or 191 other entities within the United Church of Christ, will determine the implementing body.

<sup>9</sup> "Women living under the most restrictive abortion laws (i.e., where abortion is prohibited altogether or allowed only to save a woman's life) have abortions at about the same rate as those living where the procedure is available without restriction as to reason" (p. 8)

"The more restrictive the legal setting, the higher the proportion of abortions that are least safe – ranging from less than 1% in the least-restrictive countries to 31% in the most-restrictive countries... even where abortion is broadly legal, inadequate provision of affordable services can limit access to safe services. In addition, persistent stigma can affect the willingness of providers to offer abortions, and can lead women to prioritize secrecy over safety." (p. 5)

<sup>10</sup> <u>https://www.npr.org/sections/health-shots/2022/05/10/1097734167/in-texas-abortion-laws-inhibit-care-for-miscarriages</u>

"One <u>Texas law</u> passed last year lists several medications as abortion-inducing drugs and largely bars their use for abortion after the seventh week of pregnancy. But two of those drugs, misoprostol and mifepristone, are the only drugs recommended in the American College of Obstetricians and Gynecologists guidelines for treating a patient after an early pregnancy loss.

The other miscarriage treatment is a procedure described as surgical uterine evacuation to remove the pregnancy tissue — the same approach as for an abortion."

"For some [patients, waiting until the bleeding starts and the pregnancy tissue is naturally released] is too difficult, given the emotions surrounding the pregnancy loss... Instead, the patient may choose

medication or a surgical evacuation procedure, which Briggs said may prove necessary to avoid a patient becoming septic if some of the tissue remains in the uterus."

<sup>19</sup> Just Peace Practices:

1. Support non-violent direct action.

2. Take independent initiatives to reduce threat.

- 3. Use cooperative conflict resolution.
- 4. Acknowledge responsibility for conflict and injustice and seek repentance and forgiveness.
- 5. Advance democracy, human rights, and religious liberty.

6. Foster just and sustainable economic development.

7. Work with emerging cooperative forces in the international system.

8. Strengthen the United Nations and international efforts for cooperation and human rights.

9. Reduce offensive weapons and weapons trade.

10. Encourage grassroots peacemaking groups and voluntary associations.
